Plant and Soil **230:** 333–335, 2001.

Contents Volume 230 March 2001

Volume 230 No. 1

Special Section on the Third European Nitrogen Fixation Conference, Lunteren, The Netherlands, September 20–24, 1998.

ENOD40 expression in the pericycle precedes cortical cell division in Rhizobium-legume interaction and the highly conserved internal region of the gene does not encode a peptide
B. Compaan, W.-C. Yang, T. Bisseling and H. Franssen **1–8**

New pathways for ammonia conversion in soil and aquatic systems
M.S.M. Jetten **9–19**

Trends in rhizobial inoculant production and use
G. Catroux, A. Hartmann and C. Revellin **21–30**

Nitrogen transfer in the interface between the symbionts in pea root nodules
L. Rosendahl, P. Mouritzen and A. Rudbeck **31–37**

N_2 fixation in phototrophs: adaptation to a specialized way of life
J.R. Gallon **39–48**

Regulation of the hydrogenase system in *Rhizobium leguminosarum*
T. Ruiz-Argüeso, J.M. Palacios and J. Imperial **49–57**

Regular articles

Soil temperature in a sugar-cane crop as a function of the management system
J.C.M. Oliveira, L.C. Timm, T.T. Tominaga, F.A.M. Cássaro, K. Reichardt, O.O.S. Bacchi, D. Dourado-Neto and G.M. de S. Câmara **61–66**

Continuous measurements of electrical conductivity in growing media using a modified suction probe: Initial calibration and potential usefulness
E. Eymar, L.R. Oki and J.H. Lieth **67–75**

Impact of root exudates of different cultivars and plant development stages of rice (*Oryza sativa* L.) on methane production in a paddy soil
M.S. Aulakh, R. Wassmann, C. Bueno and H. Rennenberg **77–86**

Moisture retention properties of a mycorrhizal soil
R.M. Augé, A.J.W. Stodola, J.E. Tims and A.M. Saxton **87–97**

QTLs and epistasis underlying activity of acid phosphatase under phosphorus sufficient and deficient condition in rice (*Oryza sativa* L.)
B. Hu, P. Wu, C.Y. Liao, W.P. Zhang and J.J. Ni **99–105**

Cadmium mobilisation and plant availability – the impact of organic acids commonly exuded from roots
R. Nigam, S. Srivastava, S. Prakash and M.M. Srivastava **107–113**

Leaf litter decomposition of *Piper aduncum, Gliricidia sepium* and *Imperata cylindrica* in the humid lowlands of Papua New Guinea
A.E. Hartemink and J.N. O'Sullivan **115–124**

Annual and seasonal changes in fine root biomass of a *Quercus ilex* L. forest
B. López, S. Sabaté and C.A. Gracia **125–134**

Cell wall peroxidase activity, hydrogen peroxide level and NaCl-inhibited root growth of rice seedlings
C.C. Lin and C.H. Kao **135–143**

Seasonal fluctuations in the population of denitrifying and N_2-fixing bacteria in an acid soil of a Norway spruce forest
A. Mergel, K. Kloos and H. Bothe **145–160**

Volume 230 No. 2

Does origin of mycorrhizal fungus or mycorrhizal plant influence effectiveness of the mycorrhizal symbiosis?
E.W. Van der Heijden and T.W. Kuyper **161–174**

Comparison of proline accumulation in two mediterranean shrubs subjected to natural and experimental water deficit
F. Ain-Lhout, M. Zunzunegui, M.C. Diaz Barradas, R. Tirado, A. Clavijo and F. Garcia Novo **175–183**

Are differences in root growth of nitrogen catch crops important for their ability to reduce soil nitrate-N content, and how can this be measured?
K. Thorup-Kristensen **185–195**

The mean depth of soil water uptake by two temperate grassland species over time subjected to mild soil water deficit and competitive association
P. Grieu, D.W. Lucero, R. Ardiani and J.R. Ehleringer **197–209**

Effect of rice plants on CH_4 production, transport, oxidation and emission in rice paddy soil
Z. Jia, Z. Cai, H. Xu and X. Li **211–221**

Altered aluminum inhibition of soybean root elongation in the presence of magnesium
I.R. Silva, T. Jot Smyth, D.W. Israel and T.W. Rufty **223–230**

NaCl pre-treatment at the seedling stage enhances fruit yield of tomato plants irrigated with salt water
E. Cayuela, M.T. Estañ, M. Parra, M. Caro and M.C. Bolarin **231–238**

Redistribution of sulphur during generative growth of barley plants with different sulphur and nitrogen status
J. Eriksen, M. Nielsen, J.V. Mortensen and J.K. Schjørring **239–246**

Copper in plant species in a copper gradient in Catalonia (North East Spain) and their potential for phytoremediation
C. Poschenrieder, J. Bech, M. Llugany, A. Pace, E. Fenés and J. Barceló **247–256**

Spatial variability of symbiotic N_2 fixation in grass-white clover pastures estimated by the ^{15}N isotope dilution method and the natural ^{15}N abundance method
J.P. Hansen and F.P. Vinther **257–266**

Does the lichen mat alleviate the effects of wet deposited nickel on soil microorganisms and Scots pine (*Pinus sylvestris* L.) seedlings?
M. Roitto, R. Strömmer, U. Ahonen-Jonnarth, M. Hyvärinen and A.M. Markkola **267–277**

Mobilization of sparingly soluble inorganic phosphates by the external mycelium of an abuscular mycorrhizal fungus
Q. Yao, X. Li, G. Feng and P. Christie **279–285**

Effects of repeated $(NH_4)_2SO_4$ application on sulfur pools in soil, soil microbial biomass, and ground vegetation of two watersheds in the Black Forest/Germany
J. Prietzel, C. Weick, J. Korintenberg, G. Seybold, T. Thumerer and B. Treml **287–305**

Plant uptake of major and minor mineral elements as influenced by soil acidity and liming
G. Tyler and T. Olsson **307–321**

Nutrient availability and limitation in traditionally mown and in abandoned limestone grasslands: a bioassay experiment
B. Köhler, P. Ryser, S. Güsewell and A. Gigon **323–332**

Volume Contents **333–335**

Author index **337**

Instructions for authors **339–345**
